Thornlie, Western Australia 6108

Highly motivated and detail-oriented information technology student seeking work experience to leverage and expand my skills in IT and contribute to innovative projects. Eager to apply my knowledge of programming languages, web development, and database management to support the development and optimization of cutting-edge software solutions. Committed to continuous learning, teamwork, and delivering high-quality results in a dynamic and collaborative environment.

EXPERIENCE

RETAIL ASSISTANT

Perth, WESTERN AUSTRALIA

Target

October 2018 - Present

- Developed an in-depth knowledge of the store's products and services.
- Processed returns and exchanges in accordance with company policies.
- Promoted sales by setting up displays and organizing and arranging merchandise.
- Provided support with inventory control processes, such as cycle counting and restocking shelves.
- Kept track of inventory levels to maintain enough stock to meet demand.
- Processed payments via cash, credit cards or gift cards according to established procedures.

MuscleMart

- Helped design the frontend of the website and worked with a bit of basic html, css and javascript.
