Dear Hiring Manager,

Thank you for the opportunity to apply for the Information Technology role at your company. After reviewing your job description, it's clear that you're looking for a candidate that is extremely familiar with the responsibilities associated with the role, and can perform them confidently. Given these requirements, I am certain that I have the necessary skills to successfully do the job adeptly and perform above expectations.

I am a hard-working university student (Bachelor Of Information Technology) currently attending Curtin University. During the course of my academic career, I also managed to accrue nearly 5 years of work experience. I had the privilege of working for Target in a sales assistant role in my free time, where I learned valuable professional skills such as distribution management and inventory control. In both my academic and professional life, I have been consistently praised as adaptable by my professors and peers. Whether working on academic, extracurricular, or professional projects, I apply proven teamwork, problem-solving and technical skills, which I hope to leverage into the Information Technology role at your company.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organisation. Please contact me at 0466312807 or via email at sohailharoon.b@gmail.com to arrange for a convenient meeting time.

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,

Sohail Bakhshi
